

JEAN LOUIS MOSQUERA ESCOBAR

Frontend Software Engineer

Milan, Italy | +39 3347712147 | jeanlouis433@gmail.com

[Portfolio](#) | [LinkedIn](#) | [GitHub](#)

Skills Summary

Front-End Developer with 3+ years of experience building scalable web applications using React and TypeScript. Passionate about creating performant, accessible, and maintainable UIs within modern micro front-end architectures.

Work Experience

Accenture

Frontend Engineer | Oct 2023 – Present

- Developed applications utilizing React and TypeScript within a scalable Micro Front-End architecture.
- Built and delivered independent Micro Front-End widgets, isolating features to ensure targeted data delivery and zero-downtime deployments.
- Developed responsive, accessible custom component libraries ensuring strict compliance with WCAG standards across the enterprise platform.
- Integrated APIs to build live dashboards for monitoring key business metrics, significantly improving data visibility.

MediaMiner (Freelance)

Frontend Developer | Jun 2024 – Oct 2024

- Developed a secure web interface for an AI-driven media analysis platform designed to automatically detect and flag sensitive data (passwords, confidential info) within images using react.
- Translated complex AI model outputs into intuitive, responsive dashboards, ensuring seamless user experience and strict data handling protocols.

Business Changers

JavaScript Developer | Apr 2022 – Oct 2023

- Maintained the frontend development for SiAge, the tender management platform for the Lombardy Region.
- Built dynamic forms and complex interactive validation logic using vanilla JavaScript (ES6+) to handle extensive regional data inputs.
- Optimized legacy backend workflows by developing custom SQL queries for data extraction and automating PDF document generation via XML/XSL:FO

Sielte S.p.A

IT Help Desk Support | Jan 2021 – Oct 2021

- Managed ITIL-compliant ticketing systems, rapidly diagnosing and resolving technical issues and user requests for Vodafone practices.
